Film Classification

(a) General — These motion pictures are considered acceptable for all age groups. Occasional violence, swearing and coarse language and the most innocent of sexually suggestive scenes and nudity are permitted in this category, though when these motion pictures contain any of this material, a warning may be required with an advertisement of the motion picture.

(b) Mature — This category is intended to convey to parents that the subject matter of a motion picture or the way in which it is portrayed may be inappropriate for some young people. There is no age restriction, but a warning may be required in all advertising material. In these motion pictures, the coarse language may occur more often. The sexually suggestive scenes are less subtle and the degree of nudity permitted is greater than that which is permitted in the General category. Violence may be portrayed with a greater degree of reality as well.

(c) 14 years — This category restricts, due to the content, admission to these motion pictures to persons aged 14 or older. Children under the age of 14 are permitted to attend if accompanied by a parent or other responsible adult who is prepared to sign a consent form. Again, as with the other categories, appropriate warnings may be required to accompany advertisements of these motion pictures.

(d) Restricted — These motion pictures contain some or all of the following
- (i) sexually suggestive scenes;
- (ii) frequent use of coarse language and swearing;
- (iii) violence that is depicted with a degree of reality and explicitness that makes it look real.

Persons under the age of 18 are not permitted to attend motion pictures classified within this category unless accompanied by a parent or responsible adult.

(e) Restricted designated — Due to the presence and number of explicit sexual scenes and sexually suggestive scenes or to the manner in which other scenes described in the restricted category are depicted, or to both, these restricted motion pictures are not permitted to be shown at a theatre unless the theatre has been designated for the purpose of the exhibition of the motion picture that is classified into this category. As well, persons under age 18 are not permitted to attend under any circumstances.

Film Classification
The Theatres Act gives the Ontario Film Review Board the responsibility of reviewing all films publicly exhibited or distributed in the Province of Ontario and to assign a classification it feels reflects the content. To do this, the Board uses guidelines which in their opinion accurately reflect the level of tolerance indicated by the community standards of the Ontario public. These guidelines are under continual reassessment and review.
The Board classifies film into four categories: Family — Films suitable for all viewing. Parental Guidance — Parents are advised that theme or content may be more mature than Family films. However, children are permitted unsupervised access and the decision of film suitability lies entirely with the parents. Films in this category may contain limited violence, such as hand-to-hand fighting, the use of weapons without excessive bloodletting, restrained portrayal of accident or disaster. They may also contain scenes involving very brief or casual nudity, romantic involvement which is not sexually explicit, mild use of coarse language.
Adult Accompaniment — Restricted to 14 and over unless accompanied by an adult. (Suitable for 14 and over.) Films in this category may contain limited nudity and sexual involvement. There may also be sexual innuendo, suggestive or vulgar dialogue, coarse or offensive language. There may be a higher degree of violence including bloodletting. Violence and nudity will not be gratuitous, but should be integral to the plot. Restricted — Admittance limited to those of 18 years and over. Films in this category may contain scenes of heavy violence, torture, or abuse, extremely graphic depiction of accident or horror, full nudity, sexual activity or offensive language. Eliminations — Each film is judged on its own merit. The Board may prohibit or require eliminations in a film based on the criteria set out in the regulations to the Theatres Act.

Entertainment Tax
No entertainment tax is imposed by the Government of Newfoundland. The Entertainment Act, as administered by the provincial government, was revoked in September 1968. The Local Government Act, Chapter 216 of the Revised Statutes of Newfoundland 1970 which provided for a tax on places of entertainment was revoked on April 1, 1980 and the Municipal Act which supercedes this Act does not provide the authority for an entertainment tax by municipal governments.
Under the City of St. John's Act, Section 284, an entertainment tax may be levied and a 20% tax is presently levied on movie theatres.

TVOntario is a non-commercial, educational broadcaster which operates two networks: the English-language tvo network and the predominantly French-language la Chaîne. Both offer curriculum-based programming for schools, and educational programming for viewing at home by all ages.
Increasingly, TVOntario has looked to co-producers in both the public and private sectors, in Canada and abroad, to help achieve its programming goals.

The Canada Council is an independent agency created by the Parliament of Canada in 1957 to foster and promote the arts. The Council provides financial assistance to film artists under various programs. The programs of support in the Media Arts Section and the Arts Awards Service are for artists with professional status, while the Explorations Program offers project support to artists in the early stages of their careers, professional artists who are changing disciplines, and new nonprofit arts organizations or groups.

Programs

Media Arts Section
The Media Arts Section of the Canada Council provides support for creation of works in the media arts by Canadian independent, professional artists. The section administers programs in the following areas: film, video, audio, and computer-integrated media. The Media Arts Section offers support to individual artists for the production of projects in film, video, audio, and computer-integrated media. The Media Arts Section also funds nonprofit, artists-run organizations for the production, distribution and presentation of media arts works.

Film Production Grants
The Media Arts Section offers Film Production Grants to independent filmmakers who have directed at least one film or professional artists who have produced a body of work in video. Grants are worth a maximum of $50,000 to cover direct costs of a film production. The grants are intended to support experimentation with form, content or technical process within a wide range of genres: experimental, documentary, dramatic, personal narrative, animation, computer animation, and so forth. The Council requires that filmmakers have total editorial control over the proposed production. Therefore, films being produced, co-produced or sponsored by another federal or provincial government agency are not eligible. Instructional projects, pilots for commercial or educational television and industrial film projects are also ineligible. In the case of dramatic feature-length films, eligibility is limited to low budget works which are of an innovative or experimental nature and whose other funding sources do not compromise the filmmaker's artistic control over the project.

Arts Awards Service
The Arts Awards Service administers the Grants to Artists Program that provides various grants to artists who have completed basic training and who have already directed/written one independent film. The program in film is designed to allow independent filmmakers to devote time to a creative program of work or to other projects such as research, scriptwriting for documentary, dramatic or other works, storyboards for animation, technical and conceptual experimentation in film; writing of first dramatic scripts; professional development of scriptwriters and film directors. Preference is given to filmmakers whose work demonstrates an innovative, original or experimental approach to form and content.

Explorations Program
The Explorations Program offers project grants to assist new artists, to encourage fresh ideas and to respond to new developments in the arts, in the diverse regions of the country. The intent of the program is to provide initial support to those who wish to experiment or test new ideas in the creation or presentation of work in any arts discipline drawn from any cultural tradition. Among the large variety of submissions received, Explorations considers proposals for the research, development and/or production of a first professional independent film, video, audio, multimedia or other electronic media based work. Artists must have total editorial control over the development and production phases of the proposed projects. In the case of film projects, priority is given to author-driven, short, low-budget creative works. The maximum amount which can be requested for an Explorations project is $16,000. Applications are assessed on a competitive basis by six regional, multidisciplinary juries of professional artists.

The National Film Board of Canada was founded by an Act of Parliament on May 2, 1939. Its mandate is "to produce and distribute, and to promote the production and distribution of films designed to interpret Canada to Canadians and to other nations."

The NFB is headed by the Government Film Commissioner and Chairperson of the Board, who reports to the Minister of Communications. The Film Commissioner advises the Minister on national film policy. The NFB Board of Trustees is composed of nine people; four of them, including the Government Film Commissioner, are from the public service, and five are prominent citizens representing the major geographic regions of the country.

The NFB operates film and video libraries across the country, and a national, toll-free telephone reservation system, and also maintains partnerships with more than 400 libraries to ensure that Canadians have direct access to NFB productions.

The NFB also has offices in New York, Paris and London, which arrange the commercial distribution of NFB titles through private sector distributors, promote the direct sales of films and videos, and negotiate sales to broadcasters.

The Canadian Picture Pioneers was formed in 1940 as an organization dedicated to the welfare of all men and women of the motion picture industry. It has grown to its present-day strength of over 900 members in six branches across the country.

Original membership requirements called for 25 years of service in the industry. This period of service has now been reduced to 15 years. Anyone qualifies for membership — doorman, cashier, caretaker, manager, projectionist, booker, etc. Its Trust Fund helps members of the film industry by, for example, frequently paying additional costs not covered by a health insurance plan and providing for wheelchairs and special treatments.

Aims & Objectives

To create and promote friendly relations amongst those who have been or are engaged in or connected with the motion picture industry.

To create and promote friendly relations and understanding between the public and those engaged in or connected with the motion picture industry.

To aid those in need who were formerly in and part of the motion picture industry without requiring repayment of any kind from the recipient.

Pioneer of the Year Award

In 1952 the Canadian Picture Pioneers marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre – the Electric of John Schulberg on Cordova Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetakos of Montréal, A. J. Mason of Springhill, Nova Scotia, Léo- Ernest Ouimet of Montréal and Fred G. Spencer of

Saint John, New Brunswick, were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days.

The Variety Club of British Columbia, Tent 47, is a registered charitable society dedicated to raising funds to improve the health and well-being of children with special needs throughout B.C.
Variety channels the funds it raises to where they are most needed and will do the most good. Primarily, it funds capital projects of other charities, hospitals, development centers and many other child-related organizations. These groups in turn operate the facilities funded by Variety and provide services which improve the quality of life for the mentally and physically challenged children of B.C.
Since its charter in 1965, the Club has raised in excess of $46 million and provided major funding through some 500 organizations for well over 1500 projects for children. This summary represents a few of the funding initiatives to which Variety Club of British Columbia has dedicated its efforts in recent years.

The Maclean Hunter Television Fund
Maclean Hunter established the Canadian Television Series Development Foundation as a private independent foundation to assist independent production companies in financing the production of Canadian television drama series for private sector broadcasters. The Maclean Hunter Television Fund was established by the Foundation with a capital endowment now totalling $36 million. The annual revenues generated by this capital, plus any profits, return of equity, and other, constitute the funds at the Board's disposal each year. This amounts to approximately $3 million annually.

Structure of the Fund
The Foundation is incorporated federally as a corporation without share capital and has been granted charitable status. The Board of Directors is composed of six Directors representing the industry. The operations of the Fund are administered by offices in Toronto and Montréal.

Objectives
The focus is on (1) the production of dramatic series for prime time telecast, and (2) the production of dramatic series for children. The primary criterion for acceptance by the Fund is the quality of the project. The Fund wishes to have a significant impact on the financing of each of the projects in which it participates.

Programs
The Fund provides financing in three separate areas; (A) series production, (B) pilot projects, and (C) grants to television organizations and associations.

Deadlines
February 15, April 15, August 1, November 1. Decisions are made by the Board approximately six weeks after these deadlines.

Guidelines and Applications available from Toronto and Montréal offices.

Rogers Telefund provides interim financing, and to a lesser extent development loans, to Canadian producers to encourage the production of high quality television programming. Projects with a distinct Canadian element are favoured.
Rogers Telefund requires evidence that a project has been fully financed before advancing funds. Proof is provided by the producers through signed pre-sale contracts and binding commitments from prospective equity investors. Non-binding letters of intent from prospective licensees or investors are not acceptable.
Rogers Telefund does not seek equity participation.
Interim Loans: The size of a loan depends on the nature of the project and the needs of the producer. Telefund interim loans bear better interest rates than those from financial institutions. There is no administration fee.
Development Loans: Telefund makes smaller development loans to experienced producers, repayable on the first day of principal photography or a repayment date set out at the time of the loan. The interest rate for development loans tends to be higher than that of interim loans to reflect the risk involved.

Programs Available:
The Department of Film and Video offers programs leading to the degrees of B.A. (film and video studies), B.A. Honours (film and video studies), and B.F.A. (film and video production).

Bachelor of Arts (four-year)
A traditional four-year liberal arts degree which allows students to develop the basic skills of analysis, problem-solving, decision-making and communication along with a concentration in Film Studies. Armed with these skills, a cross-disciplinary knowledge base and a strong cultural awareness, B.A. graduates pursue a wide range of careers in such areas as law, business, public administration, secondary and university teaching, arts administration, critics/historians, museum studies, creative writing, advertising and media consulting.

Bachelor of Arts Honours
For those students who meet the higher academic requirements, this program allows greater concentration in the major area, more independent study opportunities and close one-to-one supervision by a faculty member. Students wishing to pursue graduate studies are urged to take this program.

B.F.A. Film and Video
The program prepares students to become independent film/video artists or writers, directors and producers for the industry. While technical instruction is given and technical knowledge is required, the curriculum is not intended to train technicians.
The program begins with an examination of the history, syntax and theory of motion pictures, and then proceeds to the basics of film and videotape production - including scriptwriting, directing, recording, editing and music. Technical production classes are complemented by classes in the history and development of cinema, including Canadian and Third World cinema, Hollywood, documentary and contemporary film.
To proceed to the second year of the B.F.A. program, students must apply in writing and have a minimum average of 70% in their first two years of film and video classes. Admission is by portfolio and interview.
At the end of the B.F.A. program students are able to research and write a story and prepare shooting script to professional standards; produce, i.e., manage the business side of a production and ensure that it is marketable; and direct all aspects of a production.

Film Studies is an academic discipline concerned with the history, criticism, theory and practice of the cinema both as an art form and as a documentary record of our time. The cinema is a source of pleasure and knowledge, and its study should form a part of one's cultural education. The program will enable a student to develop a critical faculty appropriate to intelligent understanding of the cinema by approaching its study as a scholarly activity which rewards systematic research, analysis and exposition.
Twenty-one courses will be offered in 1994-95 leading to a B.A. with a Major or Honours in Film Study.

Ce programme d'études cinématographiques est dispensé au premier cycle (Mineur et Majeur) et au deuxième cycle (Maîtrise), dans le cadre du Département d'histoire de l'art. Ce programme d'études tend à se définir comme un laboratoire d'expérimentation et de recherche. Dans les cours sur la critique, l'analyse et la théorie, l'accent est mis sur l'importance de la recherche et de l'expérimentation tout au long de l'histoire du cinéma. Dans les cours de production, l'accent est mis sur la création de sens plutôt que sur la seule virtuosité technique.

The Can Pro Festival was founded in 1974 and it is the only organized Canadian group to:

(a) allow members the opportunity to exchange program and promotion ideas and concepts for the betterment of the private television industry;
(b) record accomplishments and reward excellence in local television station production and to highlight local television stations' involvement in their communities;
(c) inspire and encourage a sense of program and promotion production competition in the Canadian private television industry, and by doing so, maintain a "self-regulation" of program and promotion production excellence and a continual upgrade of the mean level of Canadian programming quality.

The Local Heroes International Film Festival is the NSI's most popular and highest profile program. This annual celebration focuses on distinctive, independent dramas from Canada and around the world. Guests include up-and-coming Canadian filmmakers, international directors and industry experts.

Since 1984, Local Heroes has grown in recognition while maintaining an intimate and friendly atmosphere.
The Drama Prize is the NSI's core training program. Created in 1990, this national competition offers emerging filmmakers the opportunity to develop their talents and cultivate audiences. The program has three components: competition, productions/training and exhibition. In its fourth year, winning teams will receive $6,000 from industry sponsors towards the productions of short dramatic films. Each team is assigned a Mentor from its local professional community to develop a project, and the teams also participate in writer, producer, and director workshops. The Drama Prize films are screened each year as a part of Local Heroes.

THE CANADIAN FILM AWARDS

Compiled (with permission) from "A Pictorial History of The Canadian Film Awards" by Maria Topolavich (Stoddart 1984. A co-publication with The Academy of Canadian Cinema)

In May 1947, at a national conference of forty-four organizations affiliated with the Canadian Association for Adult Education, it was decided that the time had come for awards to distinguished Canadian film and radio programs. These awards were to realize three main objectives: recognizing significant Canadian creative effort, helping Canadians to understand the work of Canadian creative artists, and raising the standards of film and radio programs.
A fifteen-member National Advisory Board was formed from representatives in a variety of disciplines and institutions across the country, and the Board appointed an executive committee to oversee day-to-day management. Two technical committees (film and radio) were selected to work on competition categories, procedures, criteria for selection, nomination of judges, and many other all-important matters, including a name for the award, and its financing.
On April 27, 1949, the first Canadian Film Awards were presented at the Little Elgin Theatre in Ottawa, hosted by the Hon. Robert Winter, Minister of Reconstruction and Supply.
The Canadian Film Awards had a long run - twenty-nine years from 1949 to 1978. They were superseded by The Academy of Canadian Cinema Genie Awards, starting in 1980.

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 5,000 motion picture craftsmen and artists. Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.
It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.
The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

Purposes
The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders of cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster educational activities between the public and the film industry.

History
The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.
The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theatre, and Administrative and Publications offices. The Academy's Center for Motion Picture Study, encompassing the Margaret Herrick Library, the Photographic Stills Archive, and the Academy Film Archive, is at 333 La Cienega Boulevard, also in Beverly Hills.

Cut To Toronto

"Let's try it again. Remember, when you enter Pietro's, you're late. Downtown's a zoo. The Festival crowd is everywhere. The taxi crawled through the noise and night life all the way up Yonge Street. You walk straight to the maître d' – you're thinking Susan has probably given up and left. Then you see him, standing at the bar. You can't believe it. The two of you haven't spoken since that Saturday morning tiff outside the Farmers' Market months ago. He sees you and approaches. You smile and wait for him to speak. Okay? Everyone ready? Action."

It could well be the most original, profoundly intelligent, incredibly difficult shoot ever attempted. Which is probably why people get that glazed look when you try and describe it.

Let's just say it's our mission at Kodak to replace that look with one of admiration and envy. So smile smugly and tell them that anything's possible when you know what resources are available to you.

Then give them our number: 1-800-GO-KODAK. We'll probably start by telling them about EXR films. Because loading the best is shooting it right.

Then perhaps we'll chat about the huge array of Eastman films – the most extensive range of niche films out there. We'll explain how the digital world meets film with Cineon Cinesite and how HDTV Telecine lets the expressiveness of film stay true for tomorrow's TV.

And at the risk of sounding immodest, we'll also mention that nothing beats the EXR Film System when they're shooting for film display. In the end, they'll know that we're behind them all the way. After all, when everyone's working towards the same goal, things tend to get done. Funny how that happens.
